

Thermally separated ceiling connector

Precast reinforced concrete balcony, cantilevered Exterior wall with thermal insulation composite system Detailed view above door | below window

DCIK 01-02-TF | M 1 : 10

	Component, example
1	Thermal insulation composite system
2	Reinforced concrete lintel
3	Insulation
4	Precast reinforced concrete, waterproof concrete
(5)	Schöck Isokorb® XT type K
6	Floor covering, floating screed
7	Impact sound and thermal insulation
8	Reinforced concrete ceiling
9	Plastering profile, joint sealing tape

	Component, example
10	Window mounting frame or metal angle
11)	Window element, door element
12)	Threshold, thermally insulated
13)	Facade channel
14)	Slab with support system
(15)	Railing
16	Interior plaster
17)	Plastering profile or elastic connector

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
