

## Thermally separated ceiling connector

Precast reinforced concrete balcony, cantilevered

Monolithic masonry

Detailed view above wall | below wall

DCIK 03.01-WW | M 1 : 10

Component, example	
①	Exterior plaster
②	Masonry wall (e.g., insulating bricks)
③	Interior plaster
④	Insulation
⑤	Plaster profile
⑥	Moisture protection
⑦	Bitumen sheet R500, sanded
⑧	Floor covering, floating screed
⑨	Impact sound and thermal insulation

Component, example	
⑩	Precast reinforced concrete, waterproof concrete
⑪	Schöck Isokorb® XT type K
⑫	Reinforced concrete ceiling
⑬	Railing

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
