

Thermally separated ceiling connector

Steel balcony, supported

Monolithic masonry

Detailed view above wall | below wall

DCIK 30-01-WW | M 1 : 10

Component, example	
①	Exterior plaster
②	Masonry wall (e.g., insulating bricks)
③	Interior plaster
④	Bitumen sheet R500, sanded
⑤	Drain mat, optional
⑥	Head plate with cleat
⑦	Schöck Isokorb® XT type SQ
⑧	Floor covering, floating screed
⑨	Impact sound and thermal insulation

Component, example	
⑩	Reinforced concrete ceiling
⑪	Moisture protection
⑫	Plastering profile or elastic joint
⑬	Railing
⑭	Aluminum composite panel, substructure
⑮	Steel profiles with corrosion protection
⑯	Wooden floorboards, substructure, support system
⑰	Sloped aluminum tray
⑱	Steel support with corrosion protection

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
