

Thermally separated ceiling connector

Precast reinforced concrete balcony, supported, subsequent assembly Wall with thermal insulation composite system

Detailed view above door | below window

DCIK 45-02-TF | M 1:10

	Component, example
1	Thermal insulation composite system
2	Grouting mortar
3	Interior plaster
4	Insulation
(5)	Slab
6	Precast reinforced concrete, waterproof concrete
7	Schöck Isokorb® XT type Q-ID and IDock
8	Floor covering, floating screed
9	Impact sound and thermal insulation

	Component, example
100	Reinforced concrete ceiling, existing
11)	Threshold, thermally insulated
12	Plastering profile or elastic connector
13)	Railing
14)	Window element, door element
15)	Facade channel
16	Aluminum sheet, edged
17)	Support system
18)	Steel support with corrosion protection

Commonant avanuals

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
