

## Thermally separated ceiling connector

Precast reinforced concrete support

Flat roof with superstructure

Detailed view of support | roof superstructure

DCIK 48-01-SD | M 1 : 10

Component, example	
①	Green roof
②	Drain element
③	Protective fleece
④	Insulation
⑤	Sloping insulation
⑥	Precast reinforced concrete
⑦	Schöck Isokorb® CXT type A
⑧	Roof superstructure
⑨	Reinforced concrete ceiling

Component, example	

Note: This detailed view is a general, non-binding planning proposal which only provides a schematic overview of the construction work. The planner and processor are responsible for checking applicability and completeness for each construction project. Adjacent components are only shown schematically. All specifications and assumptions must be adapted or coordinated to local conditions. The respective technical specifications of the data sheets, processing guidelines, standards, and system approvals must be observed. Balconies, arcades, and canopies require their own statics.
